

1. Which memory type is used for CPU cache memory?

A) DRAM

B) SRAM

C) ROM

D) EEPROM

2. Hard disk platter is generally made of:

- A) Pure Iron
- B) Copper
- C) Aluminium alloy coated with magnetic material
- D) Silicon

3. Which device processes bank cheques?

- A) OCR
- B) OMR
- C) BCR
- D) ATM
- E) None

4. Which of the following is an impact printer?

- A) Laser Printer
- B) Inkjet Printer
- C) Thermal Printer
- D) Daisy Wheel Printer

5. Which component of a laser printer stores toner powder?

- A) Ink Cartridge
- B) Photoconductive Drum
- C) Toner
- D) Ribbon

6. The first microprocessor introduced in 1971 was:

- A) Intel 8086
- B) Intel 4004
- C) Intel Pentium
- D) Z80

7. CPU directly understands:

- A) Assembly Language
- B) High-Level Language
- C) Machine Language
- D) C Language

8. Which device is both an input and output device?

A) Scanner

B) Printer

C) Concept keyboard

D) Speaker

9. Which of the following is an example of Flash Memory?

- A) HDD
- B) Floppy Disk
- C) SSD
- D) DVD

10. Which language processor converts Assembly Language into Machine Language?

- A) Compiler
- B) Interpreter
- C) Assembler
- D) Loader

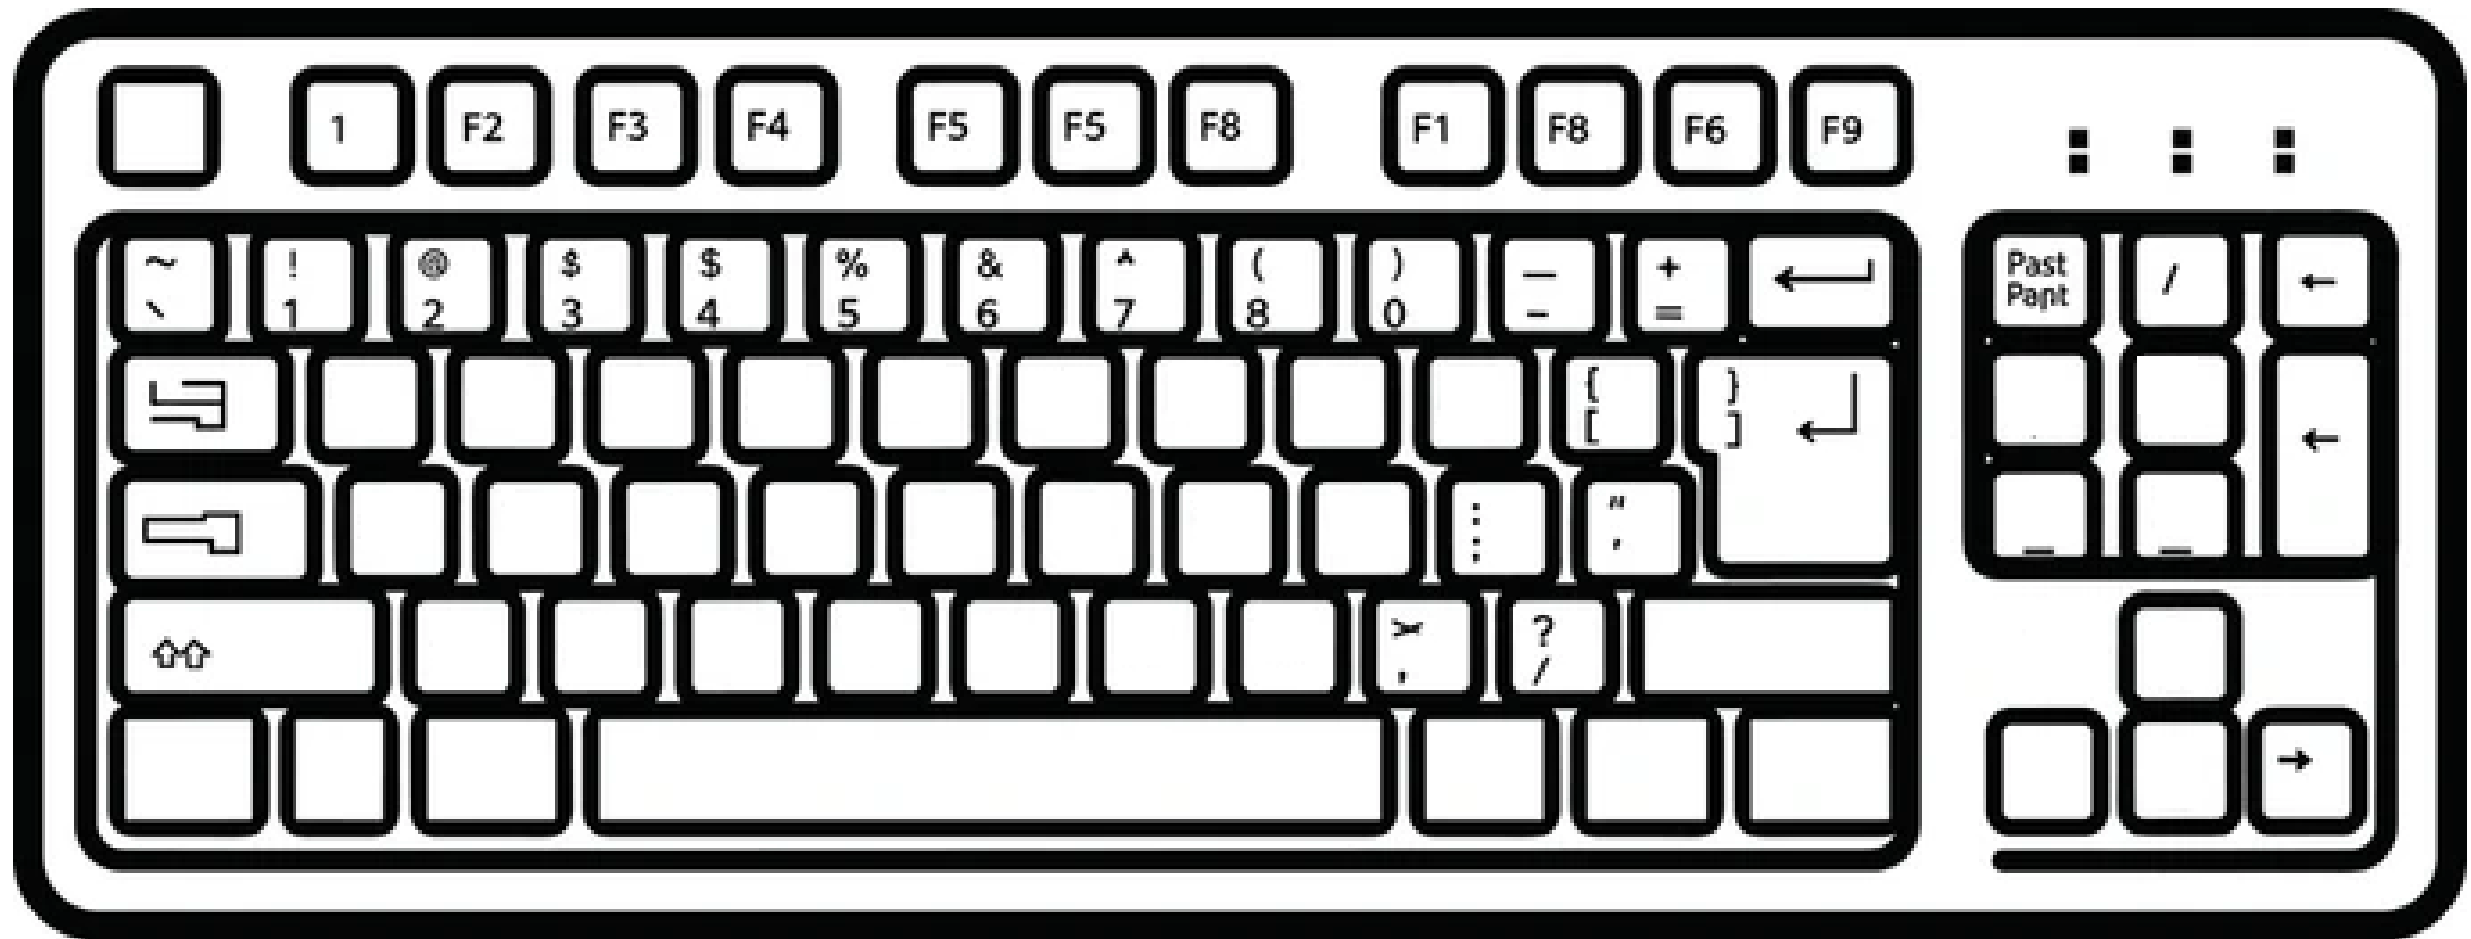

11. Which language processor reports all errors after translating the entire program?

- A) Compiler
- B) Interpreter
- C) Assembler
- D) Linker

12. Python is generally executed using a:

- A) Compiler
- B) Loader
- C) Interpreter
- D) Assembler

# 13. Fill the keypad key

14. Source code is converted into \_\_\_\_\_ by a language processor.

- A) Hardware
- B) Machine Code
- C) RAM
- D) Cache

14. Which of the following is NOT a language processor?

- A) Compiler
- B) Interpreter
- C) Assembler
- D) None

Ture & Flase

16. CPU stores data permanently in registers.

Ture & Flase

17. Cache memory is an example of primary memory.

Ture & Flase

18. HDD and SSD are both examples of flash memory.

Ture & Flase

19. A laser printer is an impact printer.

Ture & Flase

20. BCR is commonly used in supermarkets and shopping malls.

Ture & Flase

21. Machine language consists of only 0s and 1s.

Ture & Flase

22. Every I/O device is a peripheral device.

23. Printer converts hard copy into soft copy.

24. Full form of - DPI

25. Full form of - DVD

26. Full form of - GPU

27. Full form of - ICT

28. Full form of - RGB

29. Full form of - CRT

30. Full form of - ALU

31. Full form of - PPM

32. Full form of – RPM & RAM

33. Full form of – CPU & CU

34. Full form of – CD & OS

35. Full form of – CUI & GUI

36. Full form of VGA & PCB

43. Which software the help maintain, manage, protect our computer system.

Answer →

44. ICT use any 3 sector ?

45. Physical part of computer you can touch is called ?

46. Speed of CPU measured in

47. True & false

PB > bit

48. True & false

PB > EB

49. True & false

bit < byte

50. True & false

Nibble  $\leq$  byte/2

51. True & false

$(2)^8 \text{ bit} = 1 \text{ byte}$

52. True & false

$2^3$  bit = 1 byte

53. True & false

$2^3$  bit = 2 nibble

54. True & false

$2^5$  bit = 32 byte

55. True & false

$2^3 \text{ bit} = 2\text{byte}/2$

A close-up photograph of a person's finger pressing a black keyboard key. The key is rectangular with a textured surface and has the word "End" printed on it in a white, sans-serif font. The finger is positioned on the left side of the key, with the tip of the finger making contact. The background is dark and out of focus, showing other parts of the keyboard.

End
